

## **PUBLIC NOTICE**

### **CLARENDON COUNTY CLASS 2 LANDFILL 2475 J.W. RHAMES ROAD MANNING, SOUTH CAROLINA**

Clarendon County is proposing to expand and increase the permitted tonnage at its existing Class 2 Landfill and has requested that the South Carolina Department of Health and Environmental Control (DHEC) make a Determination of Need (DON) and Consistency. This is the first step in DHEC's permitting process for a landfill expansion.

DHEC has made a draft determination that the proposed expansion meets the requirements of the DON regulations, complies with local zoning, meets buffer restrictions and is consistent with county and state solid waste management plans. This determination is not final and is open for public comment. DHEC has also made the determination that the facility meets the requirements to receive an increase in the permitted tonnage.

Where there is significant public interest, DHEC may hold a public meeting or hearing to explain the permitting process and receive additional comments. Written comments or requests for a public hearing may be submitted through **December 19, 2011** to the DHEC contact listed below. All comments received will be considered before a final determination is made.

DHEC's expansion information submitted by Clarendon County is available for review at the DHEC Columbia Office listed below and in the local DHEC Sumter Office, 105 Magnolia Street, Sumter, SC 29151 at (803) 778-6548.

The regulations and other information on landfill requirements can be viewed on DHEC's Website at: <http://www.scdhec.gov/environment/lwm/html/solidwaste.htm>.

Please bring this notice to the attention of persons you know who may be interested in this matter.
